The Thirty Pieces of Silver

Coin Relics in Medieval and Modern Europe

Lucia Travaini

Series: Religion and Money in the Middle Ages

The Thirty Pieces of Silver: Coin relics in medieval and modern Europe discusses many interconnected topics relating to the most perfidious monetary transaction in history: the betrayal of Jesus by Judas for thirty pieces of silver. This book documents fifty specimens of coins which were venerated as holy relics in medieval and modern churches and monasteries of Europe, from Valencia to Uppsala. Most of these relics are ancient Greek silver coins in origin mounted in precious reliquaries or used for the distribution of their wax imprints believed to have healing powers.
